re: Du Page County, Illinois
Bloomingdale/Mallard Lake Landfill
Permit Number: 1974-17-OP
Supplemental Permit Number: 1982-62

Dear Mr. Eastep:

In compliance with Special Condition No. 5 in the subject Supplemental Permit we are writing to delineate and confirm the current progression of the leachate collection system and of the excavation floor and sidewalls.

In summary, the current progression of disposal areas is confined within the original "south hill" area and trench excavations during the period have been primarily in the southeast and northwest portions of the landfill. As trench excavations advance they are routinely inspected by the landfill operator and the inspectors of the Forest Preserve District of Du Page County. Also, periodic inspections are conducted by IEPA personnel and by this office. A report on probes advanced into the trench floor by Testing Service Corporation is being sent under separate cover.

The perimeter leachate collection system has advanced with the trenches. At present, the leachate collection system drawing is being updated by plotting the most recently installed section onto the "as-built" drawing. A copy of this drawing should be available within one week and will be forwarded to you.

Please advise us if any other information is required.

Sincerely,

James Douglas Andrews, P.E.,
President

re: DuPage County, Illinois
Bloomingdale/Mallard Lake Landfill
Permit Number: 1974-17-OP
Supplemental Permit Number: 1982-62

Dear Mr. Eastep:

In further compliance with Special Condition No. 5 of the subject Supplemental Permit we are submitting herewith the following:

- 1). Drawing No. 77-102D-HS1 by Harold F. Steinbrecher, Jr.,
P.E. as revised by Andrews Environmental Engineering, Inc.
on 6/1/83.
- 2). Testing Service Corporation Report dated 2/21/83.

This information, along with our letter of May 31, 1983 should complete full compliance with Special Condition No. 5.

Please contact me if you have any questions.

Sincerely,

James Douglas Andrews, P.E.,
President
